

Two New Private Residential-type Nursing Homes Open

Providing a comfortable living environment and nursery with aged care staff

Senko Group Holdings Co., Ltd. (Head office: Koto-ku, Tokyo; President: Yasuhisa Fukuda) subsidiary KEIHANNA helper station Co., Ltd. (Head office: Nara City; President: Yoshinobu Kubo; "Keihanna") opened two new private residential-type nursing homes on October 1, 2017, "Twinkle Ayameike" in Saidaijiryouchou and "Twinkle Nakayamacho" in Nakayamacho, both in Nara City.

* Photo is of Twinkle Nakayamacho

Both facilities feature fully private rooms complete with air-conditioning, toilet, wash basin and nurse call system, with resident qualified nursing staff stationed 24-hours a day.

The private rooms mean residents are able to make use of visiting care or home nursing services, and Keihanna nursing taxi services are also available so that residents can travel to hospitals or outdoor errands while remaining in their wheelchairs.

To provide these services for a lower price, there are no moving-in expenses required as part of the fee structure, which makes the nursing homes more accessible and gives them a comfortable residential feel to suit any lifestyle.

"Twinkle Nakayamacho" includes dual occupancy rooms for married couples, and also features a day-service center that provides in-home nursing services for occupants and local residents to help maintain and enhance their ADL (activities of daily life) and QOL (quality of life). A nursing care station with aged care staff is also available at the facility, as a way of providing child-raising services for local residents.

* Twinkle Ayameike and Twinkle Nakayamacho are open for private viewing as follows.

- Four days from September 1 (Fri) to 4 (Mon), 2017; 9AM to 4:30PM
