

Staffing Company for Foreigners Joins the SENKO Group**- Securing a workforce in large logistics centers in the Kanto region -**

SENKO Group Holdings Co., Ltd. (Head office: Koto-ku, Tokyo; President: Yasuhisa Fukuda; hereinafter “SENKO GHD”) acquired all the stocks of Kyoudou Project Co., Ltd. (Head office: Ryugasaki-shi, Ibaraki, President: Daniel Hatano, hereinafter “Kyoudou Project”), a staffing company that dispatches foreign workers living in Japan, and incorporated the company into the SENKO Group on April 1.

Based in the south of Ibaraki, Kyoudou Project dispatches foreign workers to around 40 companies in the Kanto region, including major food processing companies and metal manufacturing companies. In addition, by supporting foreigners' lives through leasing company housing, etc., and providing them with a comfortable working environment, the company has earned foreigners' trust and boasts great recruiting capabilities.

In October 2021, SENKO GHD incorporated SELF GROW Inc. (Head office: Showa-ku, Nagoya; President: Ryoichi Bando; hereinafter “SELF GROW”), which also dispatches foreign workers in Aichi, into the SENKO Group.

By incorporating Kyoudou Project into the SENKO Group, we aim to further expand our foreign worker staffing business and dispatch eligible foreign workers to the SENKO Group's large logistics centers in the Kanto region to secure a workforce on site. Moreover, SENKO GHD will support Kyoudou Project's business scale expansion while leveraging its strengths.
