

**Strengthening International Logistics and  
Promoting Robotics  
- Singaporean IT company developing logistics  
software joins SENKO Group -**

SENKO Group Holdings Co., Ltd. (Head office: Koto-ku, Tokyo; President: Yasuhisa Fukuda; "SENKO Group") acquired 65% of stocks of Singapore-based developer and retailer of logistics software Infolog Pte Ltd (Head office: Singapore; CEO: Richard Goh Yang Ceng; "Infolog"), incorporating the company into the Group on February 29.

The SENKO Group welcomed companies based in Singapore to the Group with the acquisition of Skylift Consolidator(Pte)Ltd. (Head office: Singapore; President: Hiroyuki Mirin) in 2017 and Air Planners (S) Pte. Ltd. (Head office: Singapore; President: Wang Heng Kai) in 2022, as part of efforts to expand the international air and marine transportation business and warehouse delivery business.

The addition of logistics software developer and retailer Infolog into the Group will not only help boost efficiency of operations by promoting robotics and standardizing warehouse and vehicle management systems currently used at logistics centers main in Asia and around the world, but also strengthen human resources interaction and technological exchange between the DX Promotion Department and Information Systems Department in Japan to enhance management systems. The combination of Infolog's systems and the SENKO Group's logistics services will also further enhance its proposal capabilities, with the view to securing new customers overseas.
