Proposal 4: Giving the Board of Directors the Authority to Determine the Guidelines for Subscription to Stock Acquisition Rights as Stock Compensation-Type Stock Options to Be Issued to the Executive Officers and Senior General Managers

In accordance with the provisions of Articles 236, 238 and 239 of the Companies Act, the Company requests approval for giving the Board of Directors the authority to determine the guidelines for the subscription of stock acquisition rights to be issued to the Company's Executive Officers and Senior General Managers as stock compensation-type stock options as outlined below.

1. Reasons for issuing stock acquisition rights with particularly favorable conditions

Stock acquisition rights are issued without the requirement for cash payment, for the purpose of enhancing the willingness and the morale of the Company's Executive Officers and Senior General Managers to continuously improve the Company's business performance and increase corporate value on an intermediate basis by further strengthening the link between the Company's business performance and value of its shares, and making them share not only the benefits of higher share prices but also the risks of lower share prices with shareholders.

2. Amount of payments for the stock acquisition rights

No cash payment is required for the stock acquisition rights.

3. Details of the stock acquisition rights

(1) Type and number of shares subject to the stock acquisition rights

The number of shares subject to the stock acquisition rights shall not exceed 43,000 shares of the Company's common stocks.

If the Company conducts a share split or share consolidation, the number of shares subject to the stock acquisition rights shall be adjusted using the following formula. However, such adjustment shall be made for the number of the shares subject to the stock acquisition rights that have not been exercised at the time of such share split or share consolidation, and that any fraction less than one (1) share which may arise as a result of such adjustment shall be rounded down:

$$\begin{array}{l} \text{Number of} \\ \text{shares after} \\ \text{adjustment} \end{array} = \begin{array}{l} \text{Number of shares} \\ \text{prior to} \\ \text{adjustment} \end{array} \times \begin{array}{l} \text{Ratio of share split or} \\ \text{consolidation} \end{array}$$

In addition, in the event that it is necessary for the Company to make an adjustment to the number of shares, such as in cases where the Company carries out a merger, company split, share exchange or share transfer (collectively "a merger (etc.)"), or a gratis allotment of shares, the Company may adjust the number of shares to an extent considered reasonable after taking into account the conditions of the merger (etc.) or gratis allotment of shares.

(2) Total number of the stock acquisition rights

The number of the stock acquisition rights shall not exceed 43 units. (The number of shares to be issued upon exercise of one (1) stock acquisition right will be 1,000 shares, provided however, that when the number of shares prescribed in the above (1) has been

adjusted, the same adjustment shall be made.)

- (3) Amount of assets to be contributed upon exercise of the stock acquisition rights
The amount to be contributed upon exercise of each stock acquisition right, which shall be in cash, shall be the amount obtained by multiplying 1 yen, which is the exercise price per one (1) share to be issued upon exercise of stock acquisition rights, by the number of shares subject to stock acquisition rights.
- (4) Exercise period for stock acquisition rights
The exercise period shall be from July 2, 2016 to June 30, 2046. If the last day of the exercise period falls on a Company holiday, the last day shall be the preceding business day.

 - 1) The amount of increase in capital resulting from the issuance of shares upon exercise of the stock acquisition rights shall be one-half of the maximum amount of increase in capital, etc. as calculated pursuant to Article 17, paragraph 1 of the Ordinance on Accounting of Companies. Any fraction of less than 1 yen shall be rounded up to the nearest yen.
 - 2) The amount of increase in capital reserve resulting from the issuance of shares upon exercise of stock acquisition rights shall be the maximum amount of increase in capital, etc. as provided in the above 1) less the amount of increase in capital as determined in the above 1).
- (6) Conditions for exercising the stock acquisition rights
 - 1) At the time the stock acquisition rights holder resign from any position with the Company or a subsidiary of the Company such as Director, Corporate Auditor, Executive Officer, Senior General Manager and Advisor and Executive Advisor, the stock acquisition rights can be exercised during a period beginning on the day following the day of said resignation of position to the last day of the period prescribed in the above 4) when the remaining stock acquisition rights can be exercised.
 - 2) In the event that the stock acquisition rights holder dies, the holder's successor (only the spouse, child or any family within the first degree of consanguinity of the holder) may exercise the stock acquisition rights only during a period from the day that follows the stock acquisition rights holder's death until the date when three months lapse.
 - 3) By the resolution of the Board of Directors, other conditions for exercising the stock acquisition rights shall be as stipulated in the stock acquisition right allotment agreement between the Company and the stock acquisition rights holder.
- (7) Conditions for acquiring the stock acquisition rights
If a proposal about a merger contract in which the Company shall be an expiring party, or a share exchange contract or share transfer in which the Company shall be a wholly-owned subsidiary of another company, is approved at the Company's Annual Meeting of Shareholders, the Company shall be entitled to acquire the stock acquisition rights free of charge.
- (8) Restrictions on acquiring the stock acquisition rights through transfer
